

Date: _____

Dear _____ :

I am a resident of Northeast Fort Lauderdale near Fort Lauderdale Executive Airport and am concerned about airplane noise in my neighborhood.

The City of Fort Lauderdale submitted a Revised Noise Compatibility Study for Executive Airport in January of 2003. The City of Fort Lauderdale established a Coordinating Committee made up of volunteers representing the community, the users of the Airport, neighboring municipalities and regulatory agencies to participate in the Study. The Coordinating Committee has worked closely with the Airport and project consultants to review study elements, discuss possible noise remedies, and assist with the development of a list of noise reduction recommendations.

I agree with the recommendations listed in the Part 150 Noise Study and feel that these recommendations will reduce aircraft noise in my area. I urge the Federal Aviation Administration to approve the recommendations as quickly as possible so that the City can begin implementing them and reducing airplane noise in my area.

Sincerely,

Signature
